SUBJECT: Complaint - Answer to memo from Materials Division, Economic Research, ORR

1. The reply to this type of complaint must be answered in light of the whole problem that faces the Division.

2. Between 1 April and 1 June 1959 the Division took on 122 more projects than it was able to complete. (Total on hand 1 April - 448, 1 May - 536, 1 June - 570), this in spite of the fact that the Division produced more items per month than any comparable period within the past 11½ years. This reflects the fiscal year-end push for which we do not have sufficient capability.
